All figures have been rounded to the nearest one decimal place. This means that countries may appear to have the same score, or the change over time may appear inaccurate, but this is not the case when all decimal places are taken into account. Countries have been ranked and trends have been described on the basis of full scores not the rounded numbers that appear here.

Regional Economic Community (REC) averages are calculated by applying the REC's current membership configuration for all data years.

The Mo Ibrahim Foundation (MIF) is aware that some sources update their data sets after our documentation is sent to print. IIAG raw data are correct as per the date 'last accessed', which is stated for each indicator within the Data Portal (www.moibrahimfoundation.org/iiag/downloads/).

South Sudan and Sudan are excluded from all group averages pre-2011 as neither country existed in their current configurations before the secession of South Sudan in 2011.

The Ibrahim Index of African Governance (IIAG) measures the quality of governance in every African country on an annual basis. It does this by compiling data from diverse global sources to build an accurate and detailed picture of governance performance in African countries.

The broad aim of the IIAG is to better inform and sustain the debate on African governance by providing a transparent and user-friendly resource to:

 support citizens, governments, institutions and the private sector to accurately assess the delivery of public goods and services, and policy outcomes.

- encourage data-driven narratives on governance issues.
- help determine, debate and strengthen government performance.

The IIAG was created in 2007 in recognition of the need for a quantifiable tool to accurately measure and monitor African governance performance, its progress over time and across countries, and as a means of supporting effective and responsive solutions to complex public policy challenges in developing countries. Policies need to be evaluated by their results, which can only be done if accompanied by robust data.

#### 2015 Ibrahim Index of African Governance

#### CONGO

Congo has shown encouraging gains in overall governance performance, driven by *Participation & Human Rights* and *Sustainable Economic Opportunity*.

Congo registers three top ten improvements at the sub-category level, in *Gender*, *Infrastructure* and *Rural Sector*, but this progress is not enough to push it into the top half of the rankings at the category level.

However, Congo's recent performance in *Human Development*, as a result of the second largest deterioration in *Health* on the continent, may be a cause for concern.

Overall governance: slight improvement overall but diverging category trends.

Congo scores 42.8 (out of 100) in overall governance, ranking 42<sup>nd</sup> (out of 54) in Africa.

Congo scores lower than the African average and higher than the regional average for Central Africa.

Congo shows overall governance improvement (+0.6) since 2011.

Congo is ranked 4th in Central Africa in overall governance.

Safety & Rule of Law: deterioration in National Security reverses gains made elsewhere.

Congo scores 45.8 in Safety & Rule of Law, ranking 38th on the continent.

Within the *Safety & Rule of Law* category, Congo's best sub-category performance is in *National Security*, scoring 77.6.

Congo's weakest sub-category performance in the *Safety & Rule of Law* category is in *Accountability*, scoring 18.1.

Congo has shown a deterioration (-0.0, negative change is visible at the second decimal place) in *Safety & Rule of Law* since 2011. This has been driven by deterioration in one of the four subcategories: *National Security* (-5.0).

Participation & Human Rights: Gender drives progress.

Congo scores 38.2 in Participation & Human Rights, ranking 36th on the continent.

Within the *Participation & Human Rights* category, Congo's best sub-category performance is in *Gender*, scoring 48.2.

Congo's weakest sub-category performance in the *Participation & Human Rights* category is in *Participation*, scoring 26.0.

Congo has shown an improvement (+2.2) in *Participation & Human Rights* since 2011. This has been driven by improvement in two of the three sub-categories: *Rights* (+1.4) and *Gender* (+5.1).

Sustainable Economic Opportunity: Infrastructure powers improvement in Congo's lowest scoring category.

Congo scores 36.8 in *Sustainable Economic Opportunity*, ranking 39<sup>th</sup> on the continent.

Within the *Sustainable Economic Opportunity* category, Congo's best sub-category performance is in *Public Management*, scoring 44.6.

Congo's weakest sub-category performance in the *Sustainable Economic Opportunity* category is in *Business Environment*, scoring 22.8.

Congo has shown an improvement (+1.6) in *Sustainable Economic Opportunity* since 2011. This has been driven by improvement in two of the four sub-categories: *Infrastructure* (+10.8) and *Rural Sector* (+1.8).

Human Development: concerning negative trend in Health.

Congo scores 50.4 in *Human Development*, ranking 38<sup>th</sup> on the continent.

Within the *Human Development* category, Congo's best sub-category performance is in *Health*, scoring 60.2.

Congo's weakest sub-category performance in the *Human Development* category is in *Welfare*, scoring 45.3.

Congo has shown a deterioration (-1.4) in *Human Development* since 2011. This has been driven exclusively by deterioration in *Health* (-6.4).
