All figures have been rounded to the nearest one decimal place. This means that countries may appear to have the same score, or the change over time may appear inaccurate, but this is not the case when all decimal places are taken into account. Countries have been ranked and trends have been described on the basis of full scores not the rounded numbers that appear here.

Regional Economic Community (REC) averages are calculated by applying the REC's current membership configuration for all data years.

The Mo Ibrahim Foundation (MIF) is aware that some sources update their data sets after our documentation is sent to print. IIAG raw data are correct as per the date 'last accessed', which is stated for each indicator within the Data Portal (www.moibrahimfoundation.org/iiag/downloads/).

South Sudan and Sudan are excluded from all group averages pre-2011 as neither country existed in their current configurations before the secession of South Sudan in 2011.

The Ibrahim Index of African Governance (IIAG) measures the quality of governance in every African country on an annual basis. It does this by compiling data from diverse global sources to build an accurate and detailed picture of governance performance in African countries.

The broad aim of the IIAG is to better inform and sustain the debate on African governance by providing a transparent and user-friendly resource to:

- support citizens, governments, institutions and the private sector to accurately assess the delivery of public goods and services, and policy outcomes.

- encourage data-driven narratives on governance issues.
- help determine, debate and strengthen government performance.

The IIAG was created in 2007 in recognition of the need for a quantifiable tool to accurately measure and monitor African governance performance, its progress over time and across countries, and as a means of supporting effective and responsive solutions to complex public policy challenges in developing countries. Policies need to be evaluated by their results, which can only be done if accompanied by robust data.

1 overall governance score is:

LESOTHO

Lesotho demonstrates positive overall governance performance, ranking among the best performing countries on the continent at the overall governance level and in three categories.

Notable improvements in the past four years occur in *Safety & Rule of Law* and *Participation & Human Rights*, with Lesotho showing the largest improvement in Southern Africa in the latter category.

However Lesotho exhibits negative trends in *Human Development*, the only category in which it ranks in the bottom half of the continent. This recent deterioration has been caused by a considerable fall in score in the *Health* sub-category, the third largest in Africa.

Overall governance: top ten performing country continues to demonstrate governance progress.

Lesotho scores 61.1 (out of 100) in overall governance, ranking 10th (out of 54) in Africa.

Lesotho shows overall governance improvement (+2.2) since 2011.

Lesotho scores higher than the African average and higher than the regional average for Southern Africa.

Lesotho is ranked 5th in Southern Africa in overall governance.

***Safety & Rule of Law*: improvement driven by gains in *Accountability*.**

Lesotho scores 66.7 in *Safety & Rule of Law*, ranking 9th on the continent.

Within the *Safety & Rule of Law* category, Lesotho's best sub-category performance is in *National Security*, scoring 90.0.

Lesotho's weakest sub-category performance in the *Safety & Rule of Law* category is in *Personal Safety*, scoring 51.2.

Lesotho has shown an improvement (+1.8) in *Safety & Rule of Law* since 2011. This has been driven by improvement in three of the four sub-categories: *Rule of Law* (+2.9), *Accountability* (+6.0) and *Personal Safety* (+3.3).

***Participation & Human Rights*: impressive progress in *Participation* leads to fifth largest improvement on the continent.**

Lesotho scores 70.9 in *Participation & Human Rights*, ranking 6th on the continent.

Within the *Participation & Human Rights* category, Lesotho's best sub-category performance is in *Participation*, scoring 82.4.

Lesotho's weakest sub-category performance in the *Participation & Human Rights* category is in *Rights*, scoring 58.8.

Lesotho has shown an improvement (+8.6) in *Participation & Human Rights* since 2011. This has been driven by improvement in all three sub-categories: *Participation* (+20.3), *Rights* (+4.8) and *Gender* (+0.7).

Sustainable Economic Opportunity: slight deterioration driven by decline in Business Environment.

Lesotho scores 50.5 in *Sustainable Economic Opportunity*, ranking 15th on the continent.

Within the *Sustainable Economic Opportunity* category, Lesotho's best sub-category performance is in *Public Management*, scoring 60.3.

Lesotho's weakest sub-category performance in the *Sustainable Economic Opportunity* category is in *Infrastructure*, scoring 40.1.

Lesotho has shown a deterioration (-0.2) in *Sustainable Economic Opportunity* since 2011. This has been driven by deterioration in two of the four sub-categories: *Business Environment* (-8.3) and *Rural Sector* (-1.1).

Human Development: score drop in Health performance drives category decline.

Lesotho scores 56.4 in *Human Development*, ranking 28th on the continent.

Within the *Human Development* category, Lesotho's best sub-category performance is in *Health*, scoring 65.1.

Lesotho's weakest sub-category performance in the *Human Development* category is in *Welfare*, scoring 51.1.

Lesotho has shown a deterioration (-1.3) in *Human Development* since 2011. This has been driven by deterioration in two of the three sub-categories: *Welfare* (-0.0, negative change is visible at the second decimal place) and *Health* (-5.9).
